

Course Description

The MCA is designed specially for entrepreneurs, professionals, technical and non-technical personnel within the private and government organizations involved in customs brokering and customs and tariff management, supervision and operations. Professionals working in related or support industries such as those in the land haulage or trucking business, logistic services, import and export, and cargo handling business are highly encouraged to enroll in this program.

Completion of MCA degree allows the graduate to equip him or herself with highly specialized knowledge and skills in the administration and operation of organizations involved in customs matters. The master's degree enhances the qualification of the graduates to apply for higher level positions in both private and government organizations.
